

Concerning info about human trafficking:

Denmark: 3 ½ years ago we opened Night Light Café in the center of Copenhagen. The target group is Nigerians women living in prostitution in Denmark. The night café is open 3 nights pr. week and we have about 35 volunteers. During a night 30-40 women visits the night café and we serve tea for about 20-30 on the streets. 6 churches and KIT are behind the initiative.

Nigeria: In august we finished a project, where we visited 30 villages with the film: EUROPE IN MY HEART and we held 3 state level conference. We have just signed an agreement with NAPTIP and during this September, October and November we visit NAPTIPs 9 safehouses with the purpose of making a mapping over the situation and standard of the safehouses. We are in the process of contacting Danish companies with branches in Nigeria with the purpose of creating jobs for the victims living in Nigeria.
